

FTP Commander Freeware Installation and Instructions

1. When installation begins, click the Agree box to accept the free licensing agreement
2. Click the Start button to install
3. Click OK to run the installation
4. When the software opens, click the New Server button on the toolbar at the top of the right-hand window
5. Fill in the details as shown below
6. The Password is: rose2

The screenshot shows the "FTP Server Properties" dialog box. It has a blue title bar with the text "FTP Server Properties" and standard window control buttons. Below the title bar is a toolbar with a "Cancel" button (red X) and a "Save" button (floppy disk). The dialog is divided into two main sections: "Server" and "User".

Server Section:

- Name: Breeze 2
- FTP Server: 205.178.145.209
- FTP Port: 21

User Section:

- User ID: ftp2%004f42c
- Password: *****
- Save Password
- Mask Password
- Passive Mode
- Anonymous Login
- E-Mail: email@mail.com

Additional options [Directories]:

- Use "/" as initial directory on ftp server
- Shared virtual host
- Use relative pathname

FTP Server Response Type:

Default

7. Click the save button.
8. A server list will appear including Breeze.
9. Double-Click on Breeze in the list
10. On the left side, click on the C:\ drive or the drop down box to find the folder that contains the file you want to upload to Breeze Software
11. The middle window will show the files in the folder selected in the left side window.
12. Single-click on the file to upload in the middle window to highlight it.

13. Between the middle window and the right window are two green arrows.
14. If you are uploading a file showing in the middle window to Breeze, click the arrow pointing to the right. The file will be up-loaded to the Breeze folder
15. If you are downloading from Breeze (right side) to the folder showing in the left window, click the arrow pointing to the left. The file will be down-loaded to the folder displayed on the left window.
16. PLEASE E-MAIL BREEZE WHEN YOU HAVE UPLOADED A FILE SO WE MAY RETRIEVE IT.

If you have any questions about the up or down load process, please call 518-355-8618 for support.
