Comprehensive Workloading and Inspections Software for the Cleaning Industry

Tighten Cost Control without Sacrificing Quality or Morale

Implement and measure against APPA Custodial Staffing Guidelines for Educational Facilities - 2nd Edition and five levels of cleanliness

Identify facilities, sections, areas and tasks with the highest labor costs and lowest productivity

Analyze the impact of changes to the cleaning schedule on costs, productivity, workloads

Determine the labor and dollar impact of unscheduled events (special requests, spills, etc.) on your budget

Increase Customer Satisfaction

Give your customers web access to work orders, inspections and related reports, improving communication and transparency

Clarify expectations with building occupants by sharing tasks schedules and how the cleaning program is working

Ensure timely and satisfied response to customers.

Provide easy to read reports and graphs showing cleaning quality, performance trends, follow up on work orders and more...

Automate and Simplify Routine Tasks

Perform inspections on a PDA or via the web on an iPhone, iPod Touch, iPad or Netbook.

Create a perpetual cleaning plan and project schedule

Create training manuals and organize all employee information in one location

Track supplies cost, usages and order needs and maintain equipment inventory and repair history

Increase Employee Morale and Effectiveness

Ensure balanced workloads across employees in daily schedules

Identify individual and departmental training needs

Create step-change quality gains by establishing objective cleaning criteria, identifying corrective actions and process improvements, and tracking performance

Reports and graphs provide documentation for ISO 9001:2008

Custodial Solutions

Our premier product, this comprehensive Workloading software incorporates all the analysis, management and reporting tools needed to build a cleaning plan, work the plan, measure the results, and continually improve. Available as both a stand-alone application or with breeze-online.

1. Create a perpetual cleaning and project schedule based on Industry Standards, APPA Standards, and/or your organization's standards.
2. Create employee schedules, training manuals, inspections, works orders, and reports which assist with ISO 9001:2008 documentation requirements.
3. Use objective inspection criteria, indicate corrective actions needed, identify training needs, and coach on process improvements.
4. Create inspections on a PDA, or when used with breeze-online, inspect on an iPhone, iPod Touch, iPad, or Netbook.
5. Analyze the impact of changes to the cleaning schedule on costs, productivity, and employee workloads.

Inspections are a Breeze

Inspections are a Breeze captures information critical to improving your cleaning performance and communicating clearly with your cleaners, supervisors and customers. Inexpensive and simple to use, Inspections are a Breeze assures the quality of cleaning. Available as both a stand-alone application or with breeze-online.

1. Use objective inspection criteria, indicate corrective actions needed, identify training needs, and coach on process improvements.
2. Create inspections on a PDA, or when used with breeze-online, inspect on an iPhone, iPod Touch, iPad, or Netbook.
3. Create inspections, works orders, and reports which assist with ISO 9001:2008 documentation requirements.
4. Use APPA Cleanliness Levels if desired.
